⚙️ **Advanced**

These proxy details are available as nginx variables:

- `$server` Forward Hostname / IP
- `$port` Forward Port
- `$forward_scheme` Scheme

Custom Nginx Configuration

```
client_body_buffer_size 512k;  
proxy_read_timeout 86400s;  
client_max_body_size 0;
```

⚠️ Please note, that any `add_header` or `set_header` directives added here will not be used by nginx. You will have to add a custom location `'/'` and add the header in the custom config there.
